

ESPAD 2007 - drug use among young pupils of 35 countries in Europe

The European School Survey Project on Alcohol and other Drugs (ESPAD) is a collaborative effort of independent research teams in about forty European countries and the largest cross-national research project on adolescent substance use in the world. Data are collected every fourth year with 1995 as the starting point. The fourth data collection was carried out in 35 countries during the spring of 2007.

- ▶ Download the full ESPAD 2007 report on www.espad.org
- ▶ Summary in English and French available on this site (and in 23 languages on www.emcdda.europa.eu)
- ▶ EMCDDA news release and Pompidou Group Press Release available on this site (both in english).
- ▶ The ESPAD French data for alcohol, tobacco and cannabis have already been published by the OFDT in January 2009 : Tendances n° 64 (in English and French) - press release (in French)
